

Immersive Language Learning Telo

Telo AI enhances your existing curriculum by adding a conversational layer that increases speaking practice, engagement, and confidence.

Think of Telo as an AI conversation companion that helps bring one-on-one speaking experiences to every child, even in group sessions.

Why Telo AI for Language Centers?

- **Seamlessly enhance your existing programs:** Telo integrates into your current curriculum without requiring any changes
- **Increase student engagement and enjoyment:** Children naturally connect with the robot, making learning more fun and memorable.
- **Boost speaking confidence at scale:** Every child gets more opportunities to speak in a supportive environment.
- **Support your teachers during sessions:** Telo helps structure and facilitate speaking activities while keeping all students engaged.
- **Deliver a premium, differentiated experience:** Offer something unique that sets your center apart from competitors.

*Deliver more speaking,
more engagement,
without increasing staff*

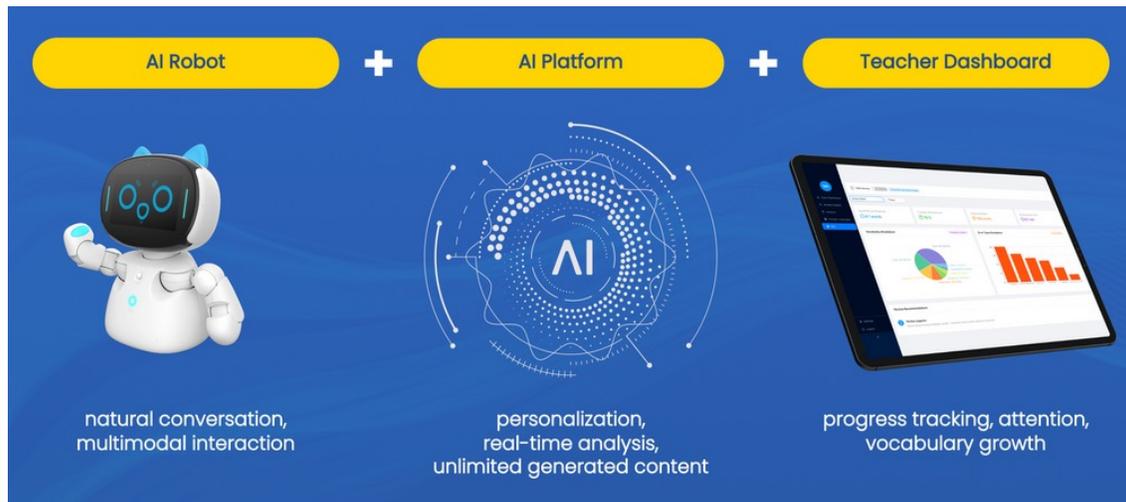

Telo

Immersive Language Learning Telo

How Telo AI Works

- **Students speak directly with Telo** in English, through natural conversations and guided activities.
- **Telo responds** in real time, adapts to each child, and keeps them engaged throughout the session.
- **Over time, Telo** personalizes interactions based on each child's level and interests.
- **Our Teacher Dashboard** provides clear **personalized AI insights** to support student progress.

Designed for Language Franchise Networks

- Works with any existing curriculum
- Quick and easy onboarding for teachers
- Easy to deploy across multiple centers
- Consistent experience accross all locations
- **Delivers one-on-one interaction within group settings**
